

Power strategy (AKA Boom/Bay)

1) power chart 2) Levels chart

(supply/ Demand) Zone level fixings

Highest Power Zones (Green) Daily

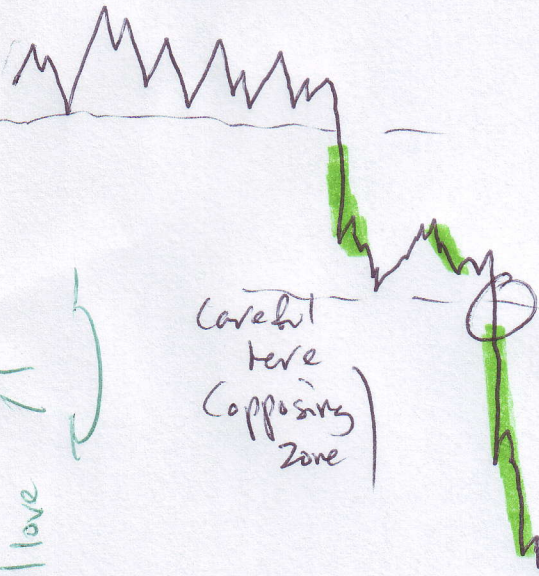

Always careful placing entry order near opposing supply demand zone

careful with 15 min supply and Demand levels

Excluding price - learn the power strategy

turning points from a 15 minute pullback off a supply or Demand zone!!
 power zones are where the trend is engaged ..

Indicators for building case and fundamentals
 Bollinger Bands, EMA price push "12/26 cross

careful until breaks Daily MBO
 Now we know ... careful with 15 minute supply and demand levels
 careful w/ wave 4 ... could be complex and time consuming "out of gear"
 let wave 4 and wave 5 be "gear"

Draw trendlines, and channels to frame the story.
Mark supply and Demand levels -- to confirm 15 min. structure
