We need to feed the Mind relax God does the deal

Self-motivation do our best rest heal

Workin' energy out constructively it matters how we feel

Part of Rap tradition sharin' open truth We Stand one

Irrigate the mind with fresh thoughts Mmhm have fun

Peace through the process Millennials have begun

Outro:

Peace. As a new age dawns upon us...new voices are being heard. We give thanks for the share phenomenon. Peace. Bringing light to the new media, which is social media. Peace. People's Free Markets. New freedom. We agree that Scarcity needs to grow up to love. Instead of making it seem cool to be a gashole. :o) In this temporary time...Yet the Spirit is eternal. Let's guard our collective peace. Every little effort counts. Peace and encouragement to all the Happy Mediums. Respect to the kind Human Rainbows. Let's keep being a collective and refuges for eachother. Peace on Earth
