Hook:

Verse

Spirit rests purpose sing your song within alive /the world is

Young-Earth ancient green tech is living by vibe's

To heal the Planet groovin' Unity so U :o) and me survives

No man (is) an Island (really) just Community Spirit play the Chimes

Keep the light ok we will rejecting any dis

We said it everyday no matter what conspiracy or twist

Saw through it like before prop up drama myths

Future reading Minds lies decades story telling fibs

How can they claim that Hippies hate,

it's the lie they push but over time we know we'll Survive to pass the love test

Wow they lead to offer less but we progress

Not exploited moral forces man it seems it won't rest (Like Lenin did with Marx's "worker's control" of resources)

Dense Dinesh Pence (still) flesh Gerrymander Justice Con'll rules installed lies anti-Civil Rights mess

Never substance listen to debates gasbags (yet) mouth(full) of words, full of swamp politics still it won't confess (this administration said Reagan's "drain the swamp" idea, yet brought a swamp of lies...they are fleshly, not living Spirit centered, otherwise they would love Democratic public interest peace?)

Verse

People's hope is truth we learn that

Marx studied proof

Public interest tax control peace

Love encourage youth

What it is, what it was, yet the story new

True Millennium third-story U

Art Healing Ministry is not a name drop

Inner prize forever bond cool let's take it to the top

Teach movie extras how to trade (we) love you wheat crop

Sure, ego where it must yet we humble peace flock

History is full of facts oppression climbed ladders

Studies Civil Rights reactions, (we) need Black Lives Matter (a response to Anti-Civil Right's is appropriate)

Documented reasons for a check intolerance the chatter

Birther pardons dense (dense dinesh) yet in time watch division scatter

People are the "Makers" free markets and stability

1% (are) the takers yeah they know who built community

Property Supremacy another form of slavery

Check it at the root the truth many storied history

(because Privatization says "Makers and Takers". What a ridiculous "Property supremacy" entitled thing to say...what a bunch of terrible thieves trying to destroy Democracy from the inside. The Founders of the U.S. foresaw these People, because they knew the history of Earth)

Peace...Love from and peace to Genki Laugh, and Mutual gratitude, Movin 39 and Grateful things to do.

We'll keep teaching the "Borg Scorch" to respect. (we have value for having a heart, unlike them, yet it's never too late). God and music is the apple of our eye. Peace to our Match Maker friends, we're married to the music. We love U. (we appreciate the thought). Peace
