Mother Earth Evolution love (lyrics)

Hook:

Mother Earth Evolution love

Natural Evolution Love (2 times)

Lyrics:

Lookin' at a glimpse of the next peace yet yep

Glitch starin' at us like their thoughts don't exist bet

They'll lie deny into a lesson like before it let's (it)

learn to reconcile the flesh find a soul set list

Patriarchy's last-gas messin' up the world again

Women mixed economy balance peace with you within

History teaches autocracies will always end

Delaying the inevitable Mother nature always wins

Love rebuke awful scratch static hate leads

Disconnected from Village nothing new glitch feeds

What's the good word is how we sit one Harvest weeds

Shed some light on 26 and love to non-believers

Decades dealing lies Ilyin just the same

Twittler snits lies claims blames and stains

Back to prayer heal from flesh creeps tangling strays

Spiritual in nature too G.O.D. we pray

Verse:
Wakin' up Perdition flesh let them see Withinem
Letem' walk it out like we did in the beginnin'
Say they save us when caused it crisis never winnin'
People seein through the lies healing Armageddon
Time for dystopians to put some real work in
Yeah we know, take a seat, stop the disturbin'
Did it to itself, root to fruit, bither cursin' (chump story is Birtherism to Insurrection)
Find your soul catchin up spiritually birthin'
Where does birtherism end? wake it upright right
Years to prepare so no surprise switch the lightlight
Thanks to G.O. reconciliation day n' nightnight

Outro:

Peace, Mother Earth Balance is natural, Women need to be in charge of resources in villages (well traditionally that is :0)

It's a physiological thing, and patriarchy is unnatural, as the ages teach us, we see Rapture Revelations, a fissure between hearing the word and doing the word, God is love, the question is not if glitch is a fraud, it's when it was not a glitch and a fraud, love is the answer, "Ruling through Scarcity and Punishment" can take a knee, because dystopian lie and deny caused crisis and took life out of public interest, closed concert halls and schools. Nothing is new Under the Sun. So, the world sees political fictions llyin cult of personalities getting no respect from G universe.

Gtech checks, OneEarth. Peace
