abundantly progressive balance what it did

Within the grace to make us stronger physically benefits

Everlasting love peace across the Earth

Arguments the mission carries on beyond the very worst

Courage with the proof don't listen haters of the curse

Everyday offer it up focus into something works

Special Heroes tried to say what was goin' on within
Living peace it takes work gratitude n' that's the win

Verse:

Best effort give it to God time to shine the light
What's the reciprocity of curse taking Women's rights
Maybe sterilize careful what they wish thinking right?
Spiritually love help us with the next election fight

Sleeper politics name recognition rarely cares
Won't be honest with itself sociopath into a tares
Privatizing public health a few decide to own the shares
Rapture ain't personal G is all into the air

Curse asks for your vote then it takes away the vote
 Go figure demagogued into a plague what a joke
 Waking up to history with inner peace is really woke
 Hate is our opponent mixed economy is taking notes

Birtherism would announce with no announcements
 All to get attention curse the peace n' dry the fountains
 Pray for strength G is truly movin' inner mountains
 Love versus static revelation till it trounces

Outro:

Peace Team. As we've witnessed the world unite in outrage, we know it's unsettling to witness what curserism did. It's so evil that a demagogued' itself into a plague. Yet it still tries to trick votes. Parents voting against their own child's control over their body and being told to fear diversity and public health. It's the same trick calling it socialism. Using famous smears lying that a liberal minded service person doesn't love children? It's a horrible lie. It's curserism that hates. And the truth is exposed in the global assembly. Curserism traditionally tries to claim faith, yet we lead them to Joshua 5:13, it's a mutual surrender. And we've learned together through studying history, that repeats itself... nothing is new under the sun. We look at originalist judges that are achieving the "Leninist

strategy" to send human rights and voting rights back to former slave states, the way that the Confederacy might have wanted. So we have to just keep working on the peace, teaching Parents that love is truly real, and that we sow seeds and God provides the increase. Call it Providence or luck. Peace
