Outro:

Peace to "Grandma Auntie". "Uncle Grandpa" allllllwright let us pray. Reverence. Remember that political agitations, that claim voter fraud, because minorities are voting, is just curserism, so don't let it agitate you, that's what it wants to do. Know that "deceive the nations" will curse itself. Peace to "we know, it's so intrusive", yet it's the future of Owl in peace and God's story, so we pray for peace. The problem with curserism, it shows itself very quickly, is that it doesn't listen, it just projects, but it'll learn. (well, some will learn, ya know). Claiming God and forcing Women to breed won't sit right with Earth assembly? Giving thanks and peace to, "Porchene", "Porchini", and "Patutti". Be safe. Science says that, if curserism keeps bullying the Nations, within about 80 years about half the

population of the planet will be finished (actually, half the Earth species?). So we give thanks for peace, and Assembly of the nations peace. One. Birtherism "political fiction psychosis", in America, is no different than the lies Hitler used to trick his political base. It's the same problem. Let's offer it up. Let's open up our eyes of understanding like Apostle Paul on the Road to Damascus. Peace
