

Peace Team. A few Rhymes for Raps if U dig. I was saying that because of the quickening of exponential tech and the new biosphere consciousness, it seems like 100 days in 1 day, yet maybe more like 1,000? (or more). "Long story longer" though. So, what I've been pondering is really a prayer about peace, and the book "Return to Love" talks about the "Course on Miracles". Its good. So, what about the Stalin curse remnants and Middle East Stuff of today? Well, curse-flesh hosts across Earth knows its junk doesn't fit with the diverse and biosphere-inclusive future so its trying to distract through crisis. (just notice a football game full of glorious diversity - it's the biggest sport in the U.S, and hate isn't welcome). That's why people are so concerned about the 2024 election, because they don't want a crisis. Regardless. God is always on the move. The article link (under paragraph) helped me understand the history more about what's underneath the story of Gaza/Dubai, and just like with seeing the "Spirit behind" the Good versus curse story, it helps to know history to understand the present. In a nutshell, Gaza could have been a Dubai, except when the leaders took control they decided to use the land to destroy? Anyway. The article explains it. If U dig, can skip to the part where he talks about the difference between Dubai and Gaza. Also, what about the Authoritarian impulses comparison between Israel and other countries? Well, in that case, it was used to deal with what the article is talking about. Awful stuff, yet history now. Instead of heeding a warning years ago, it possibly let a crisis happen (a bit like the U.S. leaders who didn't heed a 9/11 warning?), or not, maybe it was unintentional, or maybe (as usual with authoritarianism) it hoped that the crisis/distract would take the attention off of legal community's intention to serve justice? That's happening in the U.S. where "Rule of Law" and "Oath of Office" people are trying to reconcile the treason/traitor problem that everyone is aware of (see Timothy Snyder's work - or the movie "Active Measures"). Its often no fun to witness denial about it...It harkens to the stories we hear of people not paying attention to Hitler. So, considering the honest world has been sharing famous warnings the past many decades, the story will unfold.

We pray for peace.
