Verse:

Healer recognize heal
center stage air support
Heaven (on) Earth no question witnessing safe report
Rhymin' to explain what's going on, like (we) said before
Don't worry, find your peace, hopeful healing ever more

(If) Prayer takes extra time do it be Spiritful
Meditate a portion of the moment live ritual
Not about forcing thought or messin' with a lyrical
Higher power knowledge
All within magic miracle

(The) world needs water and a love tap reach
Human life temporary yet its spiritual complete
Mother Hen Collective says no worries one peeps
Physical is maintain higher love shared peace

Sharing with each other makes the story elevation
Keep keepin' on everyday meditation
Reconciliation of the devil agitation
God Spirit peace real within the revelation

"On The Steps of Central Asia" (is the) new "Scheherazade"
(both nostalgic music pieces)
Or whatever we dig togetherness the peace is what we got
Plead the / blood story don't forget to drink the holy water
Carries circulation gives a life thanks lots

Covering the future altogether teaching good
Un/fortunately future war in the global hood
Thank you / to our team how the love is truly understood
though its / Difficult to navigate love what we could

Politics religion more than label or an "ism"
Simple / really love res-ponsi-ble truly livin'
Not the / hate fear destruction devil liar no decision
Revelations God help us pray healing to be given

Intel Friends said we did a good job
All these / years work together kick snare head nod
For the / peace love the families hope against the odds
Because the / history of curserism agitates n' snobs

Con/federate curse never merit only destruction
Southern strategy same mess forcing reproduction (forcing Women to breed)
Save / Union Spirit one love future reconstruction
"Playin' a curse" is difficult chill peace "We production"
(Playin' a curse, to my understanding, means that "every skin ain't a kin" is teaching the world that hate and bigotry is a cross cultural issue?)

"Trouble" wants their Armageddon don't be mention mine
Not a threat just a process "Recon-Silly" time
We have to teach the peace across the culture G We designed
No need to get upset witnessing real Divine

As they / agitate the peace G.O.D. teach the beast
Really lessons to the bully evil haters hurting least
So pro-phetic sweeping clearance of the evil harming feasts
Make it safe for the Children all the families to peace
(for example if McCarthyism in his day took the executive branch, where would it have ended? Well, it really didn't, the unhealthy mysticism of his time, just claimed new hosts in our time, and played out into a demagogue leveraging the frustrations and decades of political fiction into a power grab?)

Can't self sufficient what's the point of automation
People should be able home based motivation
Honestly the zoom mostly chatter to awaken
Trading is identity understand the taken
(Meaning, the Home based business world of trading is new, and there is a lot of chatter
that Busy-Bee people have to sift through to get to trade signals. All in good time)

Outro:

Peace Team. We know the truth because we lived it. Dr. King said, (that) Hate is too
great a burden to bear. Love can only drive out hate. All the Children come to the light.
Prophecy fulfilled unfolding. New paradigm to shine. Peace.
