Verse:

If / We were here to bring peace what was curse here to do?
 What it does, tries to end the world without a clue
 of Any / thing or how it all works God's story true
 That's the / future lesson sleeper wake the autocratic fools

"Johnny-lates" asks who is with us learn respect ("Johnny come latelies" is usually meant to describe a critical voice, though also, Friendship is not based on length of acquaintance)

Yet the / question really is who is not "we protects"
 That's the / treasure of the story close to God manifest
 Take / courage with the really present spirit here bless
 ("Take courage with the proof" usually means "Channeler Poet Fellowship" comfort)

Like/ Ancient Rome when a demagogue took the stage
 Hyper / partisan demonizing love call it rage
 How it / takes power pray that love can see n' turn the page
 However (the) storys too close to people's life (to) see the phase
 (As we say, in our life story, we may not know the entire story)

Don't worry what it said devil tricks a crisis
 Hatin' on a place to pray we surrender vices
 Live and / let live resentment jealous voices bother prices
 Work to/gether automation working strategy devices

Outro:

Peace to "KB9", 517 and 715. We are witnessing miracles and prophetic truth. It's a thousand years story, to learn to recognize that the soul is a

piece of the Spirit of God. Quiet the outside to hear the inside peace...So we're reminded that war is a racket indeed. They can't blame Civil Rights for anti-civil rights. And we pray for healing and restoration to the deconfederization, and de-russification deliberation. God is love. Just as the political fiction in the U.S. divided Families and Friends, curse will be curse, and God is love. And we know the best name for the movie of our time is called C U.L.T. (and) regarding today's alt-right t-shirt design creation...We notice some good designs, but, if people are hating fellow citizens, based on party affiliation, orientation or skin color? That's still the curse just like hitler's cult. Rest assured (that) global tyranny has never seen anything like our current time's Spiritual Surprise. (an added note: obviously its difficult for Global theocracy and autocracy to understand that God really does love all people, because selfish-meanie-sleeper-forces don't listen Spiritually on a level of L.O.V.E. understanding, and that is where God's love talks...meanwhile, God experientially enjoys genuine senses of humor, and how our Global peace respects the dignity of people from all cultures – anyway)...And regarding worrying, and the pressures of our time, we know everybody knows how to meditate, because worry is focusing on something...let's try dwelling on good things or a project...Let's keep building. HipHopOneLove. Peace
