Peace Team. Here are some charts from the 7-2-25 NY trading session if U dig. The teaching is not my own analysis, yet what I learned from the Teacher. Respect. It's my charting, yet the concepts are mostly STB-RDBT teachings. Learning along. Giving thanks. Let's keep building. Here is a quote that carries the concept of Mindfulness and Mindset trading.

## Peace.

"Players of the Inner Game come to value the art of relaxed concentration above all over skills; they discover a true basis for self-confidence; and they learn that the secret to winning any game lies not in trying too hard. They aim at the kind of spontaneous performance which occurs only when the mind is calm and seems at one with the body...players of the Inner Game uncover a will to win which unlocks all their energy and which is never discouraged by losing" (The Inner Game of Tennis, Gallwey, pg 4)
