

Peace – Here are the charts when I found a cool Gold Futures trading strategy, and verified the ideas with the AI trade assistant. The rules are valid.

The idea:

For someone who has an earlier morning, and cannot trade MNQ, the Gold Futures (Comex) opens at 8:20am EST. I like the 1st hour of that session for Gold Futures (GC). Cool. Peace.

Here is the strategy -

Here is a trade entry, yet I got the trade entry late, so I did a replay of the better idea of how to trade Gold Futures – “GC” moves faster than MNQ, so, I like the 1 min chart for trade entries (After RSI divergence and price is leading the 9-20 EMA, and **the trade entry is the FVG-123**).
