Verse 1: We ARE alive and should be aloud gratitude so just chill
Give us space to have our morning, damn that's buggin' still
Just tryin' ta relax and motivate past the bill
Ain't wonderin' just livin' along (fart sound) and that's real

Some say no, because they like the B conflict
We gotta take the lead, the future needs help with
A new path for real, hope not nonsense
We can do it, blaze a trail, yup, all fixed

Lights in tha storm, we can shine through with that one
It's a breeze, lets show some heart like the sun
Bring us together. Lets heal and have fun
So we can move onto otha stuff, like feeding a ton

Lets make a hit song, Karaoke jobs for the rest of us
The gal can sing tha hook and tha guys can rap n stuff
Easy ta do, solves tha conflict, trust
Cash to tha non-profit, if not now, we must

Chorus: Take the lead, spoken word or raps, feel free
It's o.k. to express, be blessed, just be (4 times)

Verse 2: Doubters would rather hang money over our head
They saying supply is the answer, lets all be instead
Power to tha consumer, yup, we already said
So one love world people, many need to be lead

With all the mess and with the elections, we're losing too many votes
Lets tie it up for one, and haters, please take notes
Peaceful all respect due for change, get credit for tryin' anything
Wash it clean, so prosperity floats

A song hasn't happened yet because of noise and confusion
 Also, been getting' things together, so, now we be cruisin'
 GOSSIPERS lighten up, man, why are you snoozin'
 Can't sleep on it, because life we have ta be choosin'

I write these things because connection is reality
 Allow people to be and grow and...

(say fast not in rhythm like chant)..Lord God please help us with our light
 healing holy spirit grace power vizualizations to use prayer in healing the mind
 body soul, so we can think more on positive healthy things, and move closer to
 the joy and peaceful time that your anointment of ease brings to us.

Chorus: Take the lead, spoken word or raps, feel free
 It's o.k. to express, be blessed, just be (4 times)

Outro: Whether it's a spiritual word, or just love, love for your brothas n
 sistahs...that's moving closer to GOD, and God moves closer to you.
 Blessings. Peace.

(side note...not from the song...a special prayer to anyone dealing with life
 challenges...we send you prayers of healing, joy and peace. God is in our
 molecules...even Ghandi said so, MLK and everybody else too. So we
 choose to respect that...take care. Peace) ☺
