

(hey guys, Happy Holidays...in any bit of a way...we appreciate anything...and anything counts...for real...in this verse document, I thought to give credit to the people who shared the concepts that really helped, considering the situation and need for credit where credit is due. Folks are interested in that, and we can move on...cool) (I put the credit in parenthesis, but don't say it on the tune) ☺

Water Unda tha Bridge

“Peace to me n’ tunes is over it. And intervention’ll settle.” (peace to K)

“Happy Holidays, Peace.”

“We humans put in work over time gradually, God does that so the beast can’t take it from us immediately, peace.” (peace to I ain’t playin’)

"We're dealin' with something you can't escape from. No matter the skin or finances. We all share the same challenge. Those that understand that, that's what we're talkin' about, we show a mutual respect. That's that. Peace (echo)"

"Here's also a few things: We don't compare ourselves to others critically, because it steals our joy. For real."

“Just few things, we’re movin’ ahead, we also understand that people in the music industry who KNOW what goin’ on out there in the world want us to stay humble, out of trouble, and to learn gratitude over time. A lot of people get paid very fast in the industry. But we also appreciate that people need beats, and we’ll just charge it to tha game. Onelove.” (peace to D.O.G.G. for “charge it to tha game”---you guys are lights in tha storm)

“Happy Holidays” Peace...(echo)

Chorus: *It’s just water unda tha bridge, respect, that’s what I know, the law abides in love God abides in us, lets go. (2 times) Peace (echoes)*
