

For the grace of God....Peace, tranquility and healing to us all.....

### **Are We Here**

Intro: Are we here....Are we here...lift it up...we don't stop laughing when we get older, we get older when we stop laughing. And any step towards a goal widens the horizon, any bit counts, slow n easy. And brothas n sistahz, please don't compare us to rock stars, or rock stars to us. It's a drag, it takes the joy out of our day.

**Verse:** If they're not gonna solve it, don't bother us.

It's just principle, oblivion heat that's from all of us.

Who? Who isn't it. The word ain't new, it's real, try ta feel, all these healers benefits.

Had to say it, takin' it to em, Nah, not the yes man,

get off it let it be, address that or it's all in ruts

Oblivion hate, won't wait, wastes our time,

we know it's content to find a rhyme, it covers the shine

The world's over it, ready to squash the death for life,

it's what love do for real people, drops on a dime

So that's all folks, let us be and live (abadeeabadee)

zen moments and peace try helping us climb

**Chorus:** Are we here?...(yeah, are we here?)...Mental Shift Collective...(come on)...Respect equals intelligence. (Yeah) **4 times** 😊

**Verse 2:** All the watching ruins our moment, help us out for new seasons

So we can all relax respect rehabilitate the reasons  
 Yellin' fabrications, and people forgot,  
 there was a big thing goin' on, and making my way to Ephesians

So, Flounders, don't compute, what we know is worth Trillions  
 Don't claim you hustle and We don't, we're heal ya in's...  
 CHILL PEACE TEAM CAMP, in the cut, watching you watching me,  
 Allryght, allryght...just illin...

Back it up, fed up, now that's for real  
 Not some cause for conflict, caught in content zeal  
 Easy pay, music market, set up, shoutin'  
 changin' lives, that's that, special's how we feel

The Hattnin's finished so it's all brethren chill  
 Pray that folks are merciful, yet thousands still steal  
 Not the case, caught with paw in the jar,  
 Hater or star, next phase is the reckoning, it's a beast, so deal

**Chorus:** Are we here?...(yeah, are we here?)...Mental Shift Collective...(come on now)...Respect equals intelligence. (Yeah) **4 times** 

**Outro:** Everything gets reconciled now, as the word hits the industry more and more we just watch it happen, we pray for people's lives, and the good people, lights in the storm, and those who help others feel loved and accepted. But we need to remember...with all the noise...we need to chill!!! Calm down....Quiet down...wait!!! Wait, we need some peace.....wait!!!! Nice n quiet...Wait...(echo)

Music stops..... 😊....O.k. wait, the beat comes back here in a minute....hold on...

(beat starts again)... 😊

We just needed a moment for some peace. And no one should ever say that somebody HAD, a chance, everybody always, STILL has a chance, peace....God bless. (drum n bass on top of beat)

Respect rehabilitation, Respect people, let people be. Wish them well. They need all the help they can get. And to our brothaz and sistahz from....How could you not like that....? 😊
