

“It’s Cool, Don’t Worry” lyrics....(explanation of our thoughts are in parenthesis, to “bring it in”, as we say---we have all been through a lot together, and if we are new friends...we are glad to know you and feel better, lets make sure to give eachother breathing room.....love and discernment...we can only do our best...and take care...lets bring our respect and self... back to ourselves....a car can’t fix itself in a garage...it takes effort...for those of us that know...community effort...just like learning to calm down and not rush though things...or humans have to learn the tough way...oh, and a special love to “get him outa thayahhhh” ☺ Oh and to “California Copy, paper and reading/research gently over time is fun” ☺)

Intro:

Peace.... We wanna say thanks to “It’s Cooooool” for being kind in some real tough spots (we remember when we we’re all finding out how many people were monitoring the B-Dun “life event”, and it was real shocking to a lot of folks including myself, and some folks said...”It’s Cooooool”, and we all said..”ohhhh, o.k.” ...and it calmed down a bit, so we could feel o.k...”special, just for who we are”also there was a lot of laughing and doubting and carrying on...that stuff really stinks...even to this day we are noticing the remnants and also picking up on other “collective mind related” social events in people’s heads of people...what else is new right? ☺ Lord help us...quite a thing...that’s how it is for folks...A quick thanks to “we’ll stop you there” ...for helping the employee’s communities, including ourselves, understand that a “public trust” non profit entity is for the public, and with the budget set, can only do so much. Thanks guys...Father have responsibilities to help raise their kids...we can only do so much God bless)

Also to “We don’t mind ourselves, teaching the world we all stink, so don’t judge” (non of us mind our own smells, most of the world will always still sniff their farts, have bad breathe, smell their fingers and do weird things....the point is, that since we are all living in this connected energy reality, our “Depth of Understanding” folks many “special people”, we would like to proudly remember, teach us many very important things, while the mean denial people still sit around denying the space camera reality, and expecting someone else to help their “subjects”. It’s not our responsibility?☺)

And to the light power jugglers for being friends in real tough moments, we thank you so much, also to the non horse attached friendlies who teach the world the need for inner peace. (In 2006? We had taken a leap to take our “Depth of Understanding vision, and turn it into a non-profit...tah dah...look how far we’ve come guys ☺...and we were also trying to clear as many snicker faces and haters that we could. So many loving and discerning people really cared for all those years that I was/we were “plugged in to the Matrix” and then finally “waking up” takes a lot of community effort, that’s why we all genuinely care about eachother so much. The world could use that type of belief in each other. To anyone having tough times, we wish we could help, please reach out to those who can help you. To be perfectly honest, the B rap game is dead in the water, and now we who are surviving are witnessing some real reconciliation as the B Dunc haters get finally woken up and communicated to, and water unda the bridge gets realized...the haters now get dragged though the mud on their own doing....not our fault....it’s do unto others....all we can do is wish folks well and keep trying to communicate the love and

discernment message to rise above the senseless controversies...somebody said..."don't need another Duncan?" ...Well, Weeee don't need notha over-emotional hater/heckler to school...ain't got tha time...☺ and for real...with all these real professionals in the air around all the time, how can people still doubt our commitment to the non-profit?.. what a joke, we developed the vision collectively together...the nerve of people...we hope they calm their nerves...for their own health)

Verse: Let us break it down, professional all around, now back to our composure, sober or tha dojer, let the fun things awake, ditch tha hate fundamentally, we know, speak it like a soldier, seasoned with tha love a sense of history convincingly, solving mysteries for friends who need a friend so lets agree, to free ourselves, no anxiety keep it crystal clear, it's channel the healthy bodies or clearing social events mentally. Try ta find tha balance in our own way, if we sound like we forgot our self love, it's some hater, look we don't say, derogatory subconscious things, about ourselves it's really death it don't work for what the future brings, dues internally externally but watch it or it's over no regret remorse for death (death) it's life and keep it low for, a positive happening, snicker faces laughin, Lord knows we need some help to deal with haters, sad thing. (thanks to our hearing impaired and word document relaye friends, we love you for caring, some hater folks dis me/us on the t.v./radio/albums and this is the only way to express something about it ☺)

Outro: Peace, so we're just trying to be comfortable, considering the potential social events in our minds everyday. Takin' it slow n easy. And when they go against us, they don't realize they're disrespecting a community of people, and they find that out eventually, we thank you God, please help us, thanks Amen. And some Hecklers don't know how it works over the long term. And to the haters, that's still a thousand dollars a minute. It's God's law. That's DO UNTO OTHERS. Peace. Onelove.
