

Hey guys...well, we all got together on this one....and much love to all the folks out there trying to help....it's not just about us....it's about the future too....especially when we're dealing with all these folks who are close to or part of the decision makers in the media, which has a huge effect on the consciousness of the people. We just do these tunes to express, because the whole B thing directly effects all of us. ☺

(parenthesis is a side note)

Intro – Peace...big ups to (an artist) straight up for holding it down, we got somethin' ta say, get it off yer chest, like he said. Peace through music. Everybody's past lives, and studies (or school, humbly – everybody helps) bring a common ground to our good hearts and brothahood to carry us forward. There's a difference between peace of mind, and someone's piece of their mind. It's like music family (art/expression) or biters. (or haters)

Verse-

we're absolutely fed up with the rivalry that people cause to families (stirring strife), peacin' though it's challenging. Teacher pupil iron sharpens iron lung mints try to rest, it's what we're saying, keep balancing

Home (ohm) – so we can chill without the same rap and rhymes police hatin' throwin' claims for fame we ain't alone. Chuuch shone through, thank God or they'd have killed everybody, if a real brotha calls, pick up the phone.

Or not, have your peace, keep it you, our 48's turn to 9's it's simple times, chafes from wheats, sports get your cleats, swap meets, or meet greets complete ta treat the problem with HIPHOP PEACE (beats) ☺

Let B surf and grow plants while y'all use his mind ta rap advance a few bucks perhaps we know it ain't nothin' he's one of us so lets drop tha drama, grounds are common through music n rhymes enhance.

Hook –

It's a process. What? Whatever it is....it's a process what? Whatever it is...check it 3 times, handle your biz... (like checking an e-mail or letter before you send it ☺)

(say twice)

Verse 2 –

Love from the girls (no matter where you live or whose around, they got your back... if only the dudes out there depressed over a gal knew that...they are there all the time ☺)
Don't get too serious, peace to Curious, never worry just, keep goin' in tha lab do tha shows, love your bros, got it locked, the B saga, steady as she goes.

By us and for us (thanks man), as we said, **Blue and Red, no more blood shed, stay fed and clothed prosper, check the cost or, we forget the music doesn't pay but we do it to express from the chest HEYYYY...**

Any ideas average folks? Because the music Gangstaz won't budge from the point (took us close to a decade to figure that one, since we all talk through the music...so much love goin' around) **but nothin's free, trade offs in everything, but cash rules in the world. But wait y'all, we're still without B.**

We know we'll do a tune it's a brotha code he knows the road, helps to carry the load, and then we're all dead. Single set of footprints collab for instance we do it to death but we all go (someday), **live on warrior dreads.**

Outro -

Let's always remember you guys, it's all what we got on the inside, one day at a time (try smaller portions, chew your food, and spend more time, be aware of what we eat...open face sandwich, fruit instead of French fries, salad with lo-cal dressing if you can...much love)

Prayers to anybody doing time.

So if there's anybody out there dealing with rivalry in their lives, co-workers or friends, or family, remember Phillipians 1:15, and that settles it, the word protects (word based stuff we mean...because you can't try to check a hater in your head, they will laugh and set the place ablaze...there's a way to deal with it...(1) zap em'...(2) also, to make fun of what an ass they are...like the dude in the movie Cop Out...that would joke...that's all it is...sometimes the jokes get out of paw...we say that because not everyone has hands...duhhhhh ☺... but that's what "Cop Out" style joking is for...hang in there...remember "this too shall pass")
