

Lets Rejoice....lyrics...

(parenthesis is a side note)

(Yeah...really...let's rejoice a bit.....otherwise, what the heck is the game gonna do othawise...Rot?)

(Rouw...rouw...☺ at least that's the vibe we get from the sleeper population, And oppressors don't care if it does...but...tah dah....we care ☺)

Intro: Welp! ☺ I think we can all agree that the world and the game needs healing and some laughter...☺

(keep having your projects guys, even if it's interpreting this lyric or a book or whatever is good...poop n stretch...sniff sniff ahhhh ☺....slow breathing exercises...the usual taking care)

So, if you can find something that's funny to you, pleeease have a laugh and enjoy it and share it with others. Onelove...

Verse 1:

**Hope, yet checkpoints for peace, people, everybody equal.
Glowing takes work but that's what we try to do so it don't hurt.
Don't forget the moment in control have your goal
Not lettin' emotions blurt out into trouble freeing the mind frees the soul**

**What's happening let it pass (this too shall pass) lotta gas laughing it'll pass anything
everything so let it go and hold on to the good so be glad**

**Powers that be something other than the B focus is how we see
The next breath will free up not caught on the spokes of unity**

**Tech support family not malebelines and drama queens no offense let's
Get to the word and bring light to the struggle team**

Though the mission is complete, life's a journey nuff's enough this is not too wordy running games really disturb me, more than the truth we know, 40 30.

Attitude of gratitude glad for the good, gotta Q that a dude choppin tha wood let's wake up ourselves ta feel better always most important in the global hood.

(feeling better is always the most important thing...cash rules or not, when 20 people are pushing on your thoughts and rushing your mind from various different parts of the globe unknowingly, then...? That shit drive us nuts....so we gotta get clear...and our lives revolve around that under the radar and respectfully to others around us....to each they own...man oh man...Are we telling the truth?...yes ☺ What kind of situations are people putting themselves in for money?...Or for how much amount of time that is? We find that an hour or two or three is o.k...then gotta get to shelter...or away from the bombardment...if you are comfortable and happy in your work environment good for that person...we love ya...and pleeeeeeaaase don't pay attention to us if you are in a work environment with a bunch of people...you'll be o.k. friend...☺ but, as we were saying...does the return and new physical/mental attachments equal the amount of investment? How much is a relatively clear mind worth...?A lot...So when a rapper disses me and say I ain't a hustler, we just try to keep a smile and pray for them....well pretty much ☺ That's why we are survivors. God helps us....we try to teach peace in our community)

**Peace through you, peace through me, do your best GOD the rest manifest love it
Bub! Mind or the money is most of us carry on mission long worries gone forest
from the trees bigger picture**

Hook: let's rejoice, let's rejoice, be happy about anything, just try it peace (4 times)

**Verse 2: comparing brotha to brotha is foolish don't do it confusion brand knew
this yes thanks for ablution that's everyday everyway gotta pray are what we say
from our mind that a way Oh K and Innndiiiie peace the assembly, take it slowly
chill to us the drain is already ending.**

**Peace through you, peace through me, do your best GOD the rest manifest love it
Bub! Mind or the money is most of us carry on mission long worries gone forest
from the trees bigger picture**

**Here's a little sompn' it's a mixture gonna fix ya it's a beat not a critical list the song
is a transport that connects all of us as one that's it mistah**

**Riddlah, 2 is 4 is 3 is 12 is the world is one having fun without tha trips or dis just
chillin' holdin' it down so love can stun**

Too many dwells on the covets the shove it's n kick flips Konklin stands n misfits day at a time we are witnessing miracles as we breathe never doubt yes, get with this

People have so much don't know till they miss it no sassy or snippy just cuties and witfits love yes, cuz that's what we do, keep it low and keep clowns in check...
(we love clowns, we are clowns in our own way to have a sense of humor, aren't clowns great?...yes,we in our own little world...keep it that way guys, and don't ever let someone make you think negativity towards yourself is good...focus on the positive for your life... ☺
hang in there..all we can do is plant seeds...God does the rest...)

Talkin' grass roots, love is the gold good lookin' out KBTOOFLY peace to the Fellowship inside for the music, y'all have dreams to apply

Hook: let's rejoice, let's rejoice, be happy about anything, just try it peace (4 times)

Outro: Peace guys, feeling better about things is the gift that we share in the brothahood, if we can rest in that, no-one can touch that, mission accomplished.

We'll be happy to know, that the powers that be say, "if their so intent on it, and they're in their right mind after all these years, there must be somethin' to it"

They also say, "how can it not be good to help someone that you're already effecting by watching" (we need the good people in the air...we pray folks never forget that)

The wisdom of the ages tell us that GOD exists, we're not reinventing the wheel here. We all have our own little relationship with GOD. (Gandhi had a great way of explaining GOD's presence)

Peace.

Thanks to the creator...

(cool guys take care....one day at a time..:-)
