

Carry On (verse)

Intro:

Carry on. Peace to all the Killah B's for believing in the mission  
This is just our experience, that the "4" is God's wrath, respect, love  
And fear god if you need to. Peace.

Verse 1:

Don't question our love loyalty remember that all is royalty  
Daily decisions to rhythms reminding our mind lyrically  
We can't fix the mess but God can re-arrange it spiritually  
Famous is still 1% recognize responsibility

What's the deal break it down ease the frown see we  
Put in time for industry so pay the cost or hear it from the town they'll see  
Sitting ducks no time for arguments coughing bucks from iron mints  
Or festering pest raps to zap claps with us is how we rinse

They don't see it Lincoln stories more like rape and pillage glories  
Reframe it the word contains it imagine the village with no more worries  
Why report to celebrities when it's just material approaching 40's  
It's not real to them what's it really worth. Peace laborious.

Immeasurable power collective get free cuz that's where we at's  
All kinds infinite labs UBM's and cool cats  
Peace to Hiphop unity but we have to live and laugh  
These rhymes are so we remember the mind battles so mind these raps

Hook:

Carry on, all things from God visible invisible  
We know we're a touchstone, but keep things livable  
Your mind and your money, your mind and your money

Carry on, all things from God visible invisible  
We know we're a touchstone, but keep things livable  
Your mind and your money, God says, your mind and your money

Verse #2:

Kids aren't just eyes and ears their people too  
But that's reality so dry some tears respect the knowledge nothin' new  
Back to us and don't question us like we said  
Eyes and ears eclipse the fears back to Earth the few who knew

Bunch of liars draggin' consumers daily through the mess  
They talk to a bird throws energy at us were just tryin' ta stay blessed  
All respect to the few who care you represent the rest  
Gotta focus now thoughts to manage and projects to progress

Don't kid yourself faith is life and chatter is confused  
Wins loses sins snoozes sittin' ducks cruising blues  
Searchin' for answers fools condemn while they dab the fuze  
So many schools for common ground part of the system within the rules

Watchin' God reign far from the lost in fame stain  
It attacks the fabric of truth for facts like messages in vain  
It causes pain so disinfect with DJ decks light the next beast  
That dares tame hope just the same

Hook:

Carry on, all things from God visible invisible  
We know we're a touchstone, but keep things livable  
Your mind and your money, your mind and your money

Carry on, all things from God visible invisible  
We know we're a touchstone, but keep things livable  
Your mind and your money, God says, your mind and your money

Outro: Hey guys, yeah...(voice says in condemning way) "it's money"  
We say "Oh yeah, well the word says, God says, he's gonna take your  
mind and your money, and use it towards the good for the future,  
So we can all relax. Peace..."

(Well, we just got fed up with the rape and pillage vibes that they throw at us..)  
(what else can we say...nuff's enough...much love guys...slow n easy)
