

Make Peace not war (lyrics)

Hook:

Make Peace not war, make peace not war,
Make peace not war, it settles with the truth (2 times)

Verse 1:

See it for, what it is when it is they throwing hatred
Like the beezlebuuls of death let the people take a breathe
They even hate on hospice ministries let it go zap it
Light a torch optimistic anything and rest

Never said F money traded fill ups for the mind
simply gratefully Still mentally we bless
Pass the gossip that fuels the industry not our job description to fuel
Sleepers with content while still they cause a mess

Doing something positive and we ain't soar about the way it went
My brotha knows I care the mission heaven sent
We can live with that no matter who hates
He has his I'm fine with mine glad this lets me vent

Need our energy to live and deal with the accusers
Disrespectful gossipers confusers
Leavin' crumbs for the mind
In rhymes wolf pack vibes every one climbs not oppressing the losers

Hook:

Make Peace not war, make peace not war,
Make peace not war, it settles with the truth (2 times)

Verse 2

Still seeking truth, that's HIPHOP as we know it
No-one makes the mogul cash but moguls keep glowin'
What you do don't be envious honor simple things
Or the system'll let you know there's a structure cash rulin'

Urban world is money, the mind or death
Day at a time humbly before the divine confess
discipline and we'll tell ya right now
He won't like that his mind is a hub for content turned
Into cash

For free we'll see that's why we had to wake him up
It's how it's done another brother code thankfully
Switch it up turn oppressive tones back
Our faith is mustard seeds planted in good soil
Witness as it breeds

Still writin' music so people keep the R I P
Not enough arms knocked out God's thrown hustle peacefully
Too many sleepers talkin' bout' the question straggling
It's a spiritual conclusion learn how to live and let it be

Hook:

Make Peace not war, make peace not war,
Make peace not war, it settles with the truth (2 times)

Outro:

We must remember to remind ourselves and others to renew
Our minds. The gossip feeds on itself and wants to involve
us so we have to detach. Be optimistic or pessimistic,
Positive or negative on a situation. Maintain peace...

(Cool guys...much love...just getting' stuff off our chest...
Peace to all the veteran warriors out there who are more
recently drawing on purple grimaces...be careful...
there's a dangerous catch...at least from what we can read from it...peace) 1love...
