

One Spirit Takeover

## Verse #1

We know they are sayin' the message is money  
so tell em' ta step aside the killing ain't funny,  
the rapin' and pillaging hurtin' the rest of us  
Stand up with all of us consciousness stunning

Motivate elevate that's how we navigate 9 to 5 state to state  
Difference exonerate, educate how to survive negativity instead  
Of eclipsing the hope lets emancipate

One of the group yes we are just like Avatar  
sowin' the seeds through the word so it matters far  
from this day how we pay forward how we stay  
thanking the brothers who helped us to be this way

Business world talk is like profit to maximize  
Risk all we manage exposure we realize  
Dollars are capital spiritual hatchables  
Watch us surprise the real prizes eclipsing lies

## Chorus

I we us yes we can manifest, one spirit (4 times)

## Verse #2

Test us we'll build with the world in the zone  
Spiritual heart transformation is known  
To the death that the killing has taken to own  
From Mom's raising children need help all alone

The house is divided the message confided  
We're watching the enemy lose they can't fight it  
No mercy except from above we're exited  
Because we're still bothered by hater's who bite it

Wouldn't make peace so be known as the beast  
Still trying to remedy treat it with beats  
Ain't no game just the same no he can't stand the hate  
Meet the fate from the least with the most how we feast

(God is) using your hatred for reasons to end the all the playing  
Around all the time that was wasted replace it with love  
Over time so the good that's the word how it ends  
The good book's how it's tasted

## Chorus

I we us yes we can manifest, one spirit (4 times)

## Outro:

They said that peace wasn't an option, we get it now it's a spiritual takeover, and when we share knowledge and people are disrespectful it seems real foolish.

Big ups to freedom of speech. Onelove peace.....
