

## Real Eternal (Lyrics)

Chorus : Stay Cool, Stay Calm, Don't Trip, Just Chill (2 times)

Verse 1:

Intercession spiritual lesson blessin' intersection real confessions tests to testimonies pressin' to  
 expressions blasting through the phonies people's freedom lead em seedin' feed it readin' the mind  
 seek n find some reason to a precious lesson (also weedin' the mind, like "sifting" our thoughts, cuz we  
 are what we think) ☺

Never dead always life all it is so lets arrive to now

Better that it's knee deep pat on the back show community how

Feeling the power rid of the sour though at times it's positive negative

balancing raps so it's a truth to power

Telepathic action no distraction life is actually moment after moment

knowledge wisdom God attackin'

Love or fear is the true package trust in I n I is one

we're all the Son he got your back so pack the spiritual mind the baggage

Too much tragic millions die for greed careful theocratic let us breathe to choose

Beyond the news propaganda stackin' lies for terror lies

We realize the treasure passed the savage

Inner prize know the facts who's side your on it already happened

Chorus : Stay Cool, Stay Calm, Don't Trip, Just Chill (4 times)

Verse 2:

History teaches what division is and  
 not even all the different all a G's can change the truth from what it is  
 always simple motivations sow some patience with the kids  
 cuz trouble's waitin' every corner every moment in this Biz

Victory of the mystery living G.O.D.

Everybody CEO of their own mind keep doin' things

Any effort counts know what's up goes down

Goose or Gander Russell feathers know to flip the famous frown

It's been what it is what it's gonna be

Delete the racists save the world peace and justice spirit that's duality

+1 +2 plus infinity don't forget the WU cuz God said it's real eternally

"Respect" Never mistake what appears to be a bridge as a clearing zone. 1love

Peace through music

Chorus : Stay Cool, Stay Calm, Don't Trip, Just Chill (4 times)

(Side note...Hey guys....technology is moving everything real fast on the Planet, and humans are gonna need true leaders to help everything transform...actually no time to waste is why we are the way we are...stay well, and never let any anger or hype or confusion take you off your restful pivot (peace to K)...shinin' the light in your own way, we're all important...hopefully the world will learn to use expression and not violence to communicate...1
