

21 Salutes

Peace and blessings Guys...thanks for being us...and to those reading this who are simply interested in the “what it is” from our perspective, who have heart...this was for you...We were going to write a Rap “21 Salutes”, but “Let It deal” and Real Eternal” (amongst other tunes) already settles our case...and we’re just really fed up with having to address the same attacks...we need a break this week...

21 gun salutes was “Peace through music, but no cash for him, cuz it’s hood thang” ...I’d say more about that, but it (money over my head) started attackin’ again, and I can’t always bring light to it when I need to live my life now)... Yes, we have to remember that all of a sudden a bunch of “White people” started watching, and it became a struggle, thus the 21 Gun Salutes...but it’s been 10 years since the “Matrix unplugged” happened...now maybe we can move forward together...thanks for peacin’ through music and not using violence...all respect due to everybody fightin’ through to the next moment...just a note to be careful hatin’ on the nice kids who had some help growin’ up, because the privileged Kids you are raising are having help to...we love them...”not where you’re from but where you at”...Our advice is to ease up on the “Runs” because we tried to help make peace, but “21 Guns” seemed to important...so we go forward in peace through music...4 is real, and all the disciplined 9 to 5’s are listening...be encouraged...peace

21 salutes is how it played out for us (the “him” from 21 gun salutes), and is about the lessons we learned...”We know Carl” (A Car’l help)☺...means...”we’re not gonna pay you to be another Celeb musician that doesn’t understand gratitude for the simple

life...”...In 2006, I got a car (a true blessing) , and was able to drive to work, and had some help to go study business in school...which helped us all learn about Capital preservation, Profit maximization, risk management, trade offs in everything, Six Sigma, Organizational behavior, Resource optimization, Bottom up/Top down...and we are still on our personal quest to develop a simple strategy for Supply and Demand short term (intra day trading)...

Financial market side note...we will have to save up and study our “Supply/Demand” Guru odds enhancers criteria in real time...realistically we will have to trade asset classes that are during the day (securities) because I/We have to rest at night, and pray/meditate/practice/physical therapy/green tea simple life in the mornings...(because 4X in our time zone is late at night or early in the morning) all the studies are a blessings and it changed the course of my (our) life...they (Car’l----Elders) wanted me to work, find my way, and I have done just that, found the Word of God, and learned to appreciate the small family I have...it’s a lifelong journey...God is good.

Who is the “We” I refer to...”We” is my telepathic community...it’s where all the Raps related to our story has gotten it’s a material from all these years...and would you believe some folks turn around and disrespect it..? WOW! Here goes JUSTICE...☺ It’s God’s thang...
One day at a time...

Thanks to all the friends who continue to look out for us...!
We’d do the same for you Guys...Happy Holidays...

Peace Guys...so here’s a few thoughts about the 21, 22, 23, 24, 25 ,26 27, 29, 30, 31, 32, 33, 34, 35, 36, 36, 38, 39 40 etc...that the

Media is always dialoguing/discussing with...it's peace through Art, but let's hurry up for the kids...☺

20 = Twiny (twins)...we are doubles...and balance each other...just like in life...all things go to the good... Our story is a multicultural "saved each other's lives" lesson... (It's not the Brotha against Brotha division/oblivion/oppression nonsense)...yup...2 sides of it...chafe from wheat...good n evil...build or destroy...Lord have mercy ☺ yeah, the Cream rises to the top...and "cash rules" on the Planet, but without the love...there's no 4...like the scripture from the weddings "without love I am a clanging symbol"...

...as it was said "The Cream rises to the top"...so if God loves everyone...then it can't be that \$ is the Cream for the Planet, it has to be love...! So if that's the case...how does love manifest?...Food, shelter, not captive to needs and wants...honor the lower levels that create the markets...yes, that's 21, 23, 24 etc... "Twiny – 20" is God's creation...so our job from here is to teach that...respect...and we can move on....

We get so tired of the Hype pushing the enemy's message! Especially when the story that helped to create the "Cash", is disrespected and forgotten for greed...with a Rap about our story there is a responsibility! Nuff said...that's what we have been fighting...we'd say, "yeah" we know 41, 41, 41...yeah, alright already"Motivate! Cultural Power! Be proud of who you/we are we are! Give God the Glory! But don't oppress me or anyone else...that's the enemy!

When we hear a piece that pushes oppression using something related to us or the "God miracle" that created an entire Rap game content segment for folks to have material....we respond with..."what a bunch of Snobs"...and "Lord rebuke that"Jude 1:9 (Archangel Michael is to have said it...and it works)...we go

by the “word” basics and not the literals or “legalism”/dogmas of our faith...the scripture helped us fight back the haters big time...it gets all the credit...for that matter...God gets all the credit...that’s why we are all about the Word...a real “witnessed by all testimony” ...tested into a testimony, and we are just tired of the same test, same enemy, expecting us to give it the time of day... WERE GONE FISHIN’ ☺ Yeah, “He done’...even back when we woke up...or woke me up...etc...we are united...thank God!!!! This ain’t an audition, but we did the innocent until proven guilty bit for JUSTICE sake... We could have ended it with a phone call or check in the mail...so they wanna say it’s all cash...fine...eat it...peace! Love wins... ☺

Unity...What comes around goes around...engaging the hate is very distracting (sometimes necessary) but mostly a waste of energy because the enemy will just laugh and cause another fuss somewhere else...keep your peace...we take turns pushing the enemy back...it’s gonna be o.k. Guys...we got em’

We watched the oppressor take Hiphop from under everybody’s noses and say it’s “all about” greed and zero sum games (winner takes all)...God’s word was love, and God is perfect, Justice in the long term, so the Beast won’t win in the end....so we hope that folks will listen to those who influenced me (at least, because that’s where I learned about the “B thang”)

Isn’t the winner takes all what created the oppression in the first place? Music of the people, and for the people, not just the “lucky few”...The people’s music to teach all markets and industries...we’ll “Let’s do it Dog!” ☺ “Ding ding dong...!” Thanks K for believing all these years...You are a light in the storm...God bless you and family...you helped us Big time Brethren...peace...

They can take a cup of JUSTICE from here forward...we need to try to just be as comfortable as possible as we survive this phase of the Satellite “knowing” because it’s the variable that effects our comfort every moment...especially if our team won’t let them get away without an apology to the people, and “less oppressive” actions...Justice is 4 to us...JUSTICE for all...God’s word teaches gratitude and discipline...we don’t make our own rules...no matter our skin...21...1love...

1...onelove..... 3 = love (we are love, respect, discipline)
4 = discipline, success (manifestations \$) (we’ll see 41 a lot or 40 from certain Sprite’s that means they are claiming to be the winners by being efficient and profit maximizers at all cost)
Don’t forget the Children...they need us...so “Can it!” Thanks.

We say, 21...all the way to 40 and all the numbers that God created, because it’s “All love”...and it has to be, God’s Word...

1st John 4:16 “When we love, God abides in us”

Our peace keeping mission has always won this battle, though they keep trying to get me “faceless” (24/7 telepathic), by comparing me to my Twin from another Mother Earth, and trying to hang money over Our/My head...The “Oppressor bit” is real old...We said “he done, and we’ll fly those heads” many years ago...so what’s with the Brotha against Brotha bit to this day...probably the lie about the message of love just playing itself out, so that JUSTICE can squash the enemy to bits.../ Justice is a multicultural mission people, that transcends the skin, and there is

along history of this battle that goes back to many persecution stories and divisions (like how there are so many different religions from Abraham, and yet the same basic Abrahamic Faith of One God)...so we envision a huuuuge TV screen in the sky that will have to teach everyone the origin of Faith in many languages, and the ways that we can carry on as humans...the saying “absolute power corrupts” needs to be kept in mind, or the “Oppressor” will use it to capitalize, and there once again is the conflict...Knowledge is build or destroy...Love wins...

“If I wasn’t nice, I wouldn’t be here...” Thanks for that one man....so don’t expect me or the Gentle souls on our team to be a certain way, or sound a certain accent...that would be a front...and it ain’t about how we look or sound anyway...at the same time...let’s honor the gift of how the world has embraced the “Sound” of a Rapper’s voice, and be thankful...meanwhile the World is moving fast, and all accents are Rapping...that’s a gift...I love...respect...we want the Children to grow in love...
3 + 4 = 7 “A life of balance”
