

Get it Right (let's) – Lyrics

Hook:

Let's get it right, this is war

Reap Sow n' nothin' more who ya fightin 4 (4 times)

Verse:

Never tweet your location, protect your vocation

Workin' through vacations slept on relations

Never lose your patience it's war slow invasions

Keep your mind strength in numbers G.O.D. is wagin'

RWB that's me n' nothin's free

No end in sight "u end owes" know to keep it G or leave it alone ya' see

Build n' find a zone constructively Jesus died so let us be

Simple doubles loyal 4 life people's royalty

Word...to tha wise...(echoes)

Hook:

Let's get it right, this is war

Reap Sow n' nothin' more who ya fightin 4 (4 times)

Verse #2:

Historical argument is now embedded in the times we have to seed the truth to redefine what's originally divine

It's more than color obviously kind or wouldn't be Brotha Brotha and it's like we said I'm just R inclined

Impulsion or correction price level speak direction call it sentiment we have to vent address the set expressions

Found our place to fit without the grids spectacle impressions claimin' cash above our heads they have a choice to build the session

Globally X chex so many sets double U is next it's to the core a nameless score ain't takin' names cuz less is more

We use the "soar" but clear the pain, cuz "yeah we back" is from the poor so get it right let's fight the fight riches open up the door

4....yes, but what's the end song.

Lord rebuke (please) so we can breathe your help until it's gone

Eleven respect let's know and put it on

The wheel n' not the spokes don't get all caught up in the wrong

Hook:

Let's get it right, this is war

Reap Sow n' nothin' more who ya fightin 4 (4 times)

Outro:

Peace, bout' respect. Word! Peace to tha Brotha that said, "Be cool where you at B!" Peace and gather yourself stop light to green light, be with GOD, gather yourself and carry on. 1

Word! (echoes)

And peace to "He's always got a cool head." That's the respect, Lord knows we try. 1

Word! (echoes)

And remember if your chillin' in the cut, careful where you at. Respect.
Peace.

Word! (echoes)

Hook:

Let's get it right, this is war

Reap Sow n' nothin' more who ya fightin 4 (4 times)

(side note:...so as wise MC's said years ago..."They'll try to shove him in a 2 em'" (tomb)...so there's still a bunch of condemnation, the relationship with it is just "Lord rebuke that, Jesus died, so let us live in peace"....(to repent...Blood of Jesus please wash us clean) that's the best we can do. We have family and friends who need us, so the haters can take the lack of gratitude and step aside...this is a people's love power movement...and we'll just find out who they all are later on the PBS series special someday...There had to be the antagonist and protagonist...anyway...won't be any compromising now that "4" is getting hip to everything....we tried...repent and find peace...that's what we feel is important...peace through music 1world...peace)
