

The Tower of Babel was a symbol (“pinnacle”), to historians that represented Man’s attempt to “bridge sky and Earth”. So, Man could visit Heaven. Babylonians tried to “out do” the Egyptian pyramid makers...The story is that “the Fear of God” was buried with Noah. In

Babylon, God's were invented that made "no serious demands on the conscience"...

Side note: we are not in any way mentioning the Build or Destroy empowerment movement of God's and Earths. That's not for me/us to say...All respect to the Hiphoppers who have made transformative lives out of oppression. Considering the oppression, what happened, was a natural effect to create a cultural center and oneness separate from the world. Many are still on the "God within" or "We are God's" empowerment, and everyone is different. We're all different faith pathways, and are special. Besides, 1st John is similar, (he who is at work in me, is greater than that which is in the world) Amen! (1st John 4:4) Now over time, we achieve greater balance as the truth is exposed in the Global assembly...All we ask is for folks not to try to pass off the black vs. white thing on us, when we represent the future...Please don't insult us that way...love is Universal truth. Obvious to those who know the root of the B game.

We are just asking for 501 (c) (3) dialogue with the multimillionaire Brothaz...respectfully.

Also an iron sharpens iron note...this is a goodwill note, to share. A built in plan molded by God in time, so that we can influence each other...it may seem like, the right thing to do is to wave money in our faces? Does it? This is a little gentle warning to media folks as we go forward: How do you want to be perceived, as we peg (God pegs, excuse that) this Running Game to love and the Word, as interpretable to the

simplest of us people? The part about the “ice cream” working in the entertainment business is long gone now, and our experience is to understand the joys of a simple life, and live in peace gratefully...Which was our team’s point...Some thought it was just an “exclusion” point, but there is a bigger plan at work...it’s actually an “inclusion” point...and, as we went along, a great, “living through a rhyme” story...how great! Many thanks always to those who helped “unplug” some of us, so we could have a perspective such as this document...God the Glory, be well and blessed.

We have to now reflect as many have, through all the years, that we live in a “Watcher” and “Living Spectacle” Earth reality...Because y’all just won’t drop the bridge and let us show through the many human spectacles being helped and encouraged, that y’all aren’t in the Watchtower pissing on the people. It’s never too late. Let us do much better...Then we can move on to other sustainable initiatives for social wellness...(or how about reparations for those families still dealing with the effects of slavery?)....Please don’t worry about, “oh, well if this spectacle get’s paid (help), they won’t be this way or that way”...that’s the least of the concern, especially as y’all are looking like the oppressor...let’s start building your case...want help? It’s been here a lonnnnnnng time.. 😊 The advice is to create a tax deductible organization for the purpose of dealing with the spectacle hosts that have helped create the trillions of dollars. Sustainable reasonable solutions, that plead the case for y’all and your children. Or do you want the “leak” to occur...We’ll leave it at that...cool...just trying to help...the conversation and bickering wastes our time....Knowing the past, we don’t expect much, but with faith, we know we could see a

change in how y'all live off the "feeds" of people's lives...keepin' It real...This conversation is over, or we wish it was over...considering all the resources and energy present to create change. We hear the threats, don't worry, all the guns and drones and all that are over on this side, so just chill...we're a story being watched, and love to my friends who are looking out...We're around for tea and a chat at any time...same with media friends...don't be shy... 😊Running drama hype and "fuss" is a real waste of energy...spent many years trying to make some sense of it...No one who freshly finds out in "law and order" is going to be as kind as we are...

It's Morrrrrre Than Babylon, and (no offense to any business folk) "2x" is a lazy excuse for a way to address the world's needs. We are to be responsible Leaders right? 😊 Please don't try to "terraform" a cultivated inspiration into a Babylon construct. We are maturing as people, let's inspire each other... thank you.... 2x is an excuse to perpetuate the same...let's do better...Don't try to reinvent the wheel...Study a bit of the Word of God, and History. Study the point of Jesus (Lamb of God), Mohammed and Clarence 13 (the real story of love for the people, not "wayward teaching" as he called it) The story is about how to recognize, and lift the lives of the people. Don't try to create your own "Lambs of God" spectacle stories. Mind yourself. God knows your heart and mind at all times...

Our language is 501 (c) (3)...Let's talk on those terms. Sustainable job creation and consciousness. Otherwise, it's wasting our time....to those who have prospered...let's help others be well...not talking about our friends who make albums and stuff (be happy and prosper)...They are

trying to bring light to the situation, while surviving the “watcher” and “spectacle” experience also...we’re talking about the major Billion dollar entities that are now “on board” using the “X” motivation for Babylon. 😊 We pray that play time is over friends. There’s no sneaking around in small gatherings, because everyone is being watched and respectively making arguments in the media etc. No offense....Do the work with us please, and then have the fun etc. No offense. Thank you. God is love. 1st John 4:16. peace
