

Let's make peace and move on

Peace and blessings friends...it's been quite a journey, thanks to all the good people...was looking at the alphabet and it helped bring light to "as it relates"...no offense to anyone, this is just a basic (relative to here) analysis regardless of opinions/experience/personality...only positive from here, and to all the folks who have cared...thank you...

So, as a response to the usual "no end in sight" (2x) man made division spillover of negativity (persecution/condemnation) that finds it's way into our lives...(whether it's "2 4 cash" content or not)...no offense to Brothaz that helped hip me to this...R = 18...S = 19...M = 13...we're just fed up, and need to remove the negativity...which is a good motivator to understand what God is really doing here...if we cannot address our own division, how are we going to have the energy to address division in faiths and global political ideologies? (other than, here's what's in your mind) ☺ Yo, satellite check 1. 2. ☺As far as many of us are concerned...we have to "can 2x", and "quarantine it"...until it makes peace with itself...yes the "25" "2x" thing...it's supposed to be 100, but folks are still playin' with it, because it's good content, which helps create cash flows for various people...meanwhile we have to fight the negativity of the unresolution for free...(most of us)...also, it's the arguments of factions that won't bend or "give in" for peace sake...with all respect, please make peace with each other or just leave us alone about it ...thanks...and no offense...it's just a waste of time, because there's "no end" to it...we see it as just a "2x play" ...about what is 4, 14, and 24...W = 23 and U = 21 etc...E = 5 "awakening" ...God's creation...

O = 15...what is 15...September 15th?...well, let's wake up folks...thanks...peace...Heaven knows...this is why we don't tune in as much...5 it up...reality satellite onelove...F Division...F = 6 (closure)...364...1love....

Again, much love, and no offense.

2x "play" needs a talking to. This is a "no end in sight" profit motive, that is disrespecting what God has created. It's a Redemption/Reconciliation of God's Spirit/Word on the Planet (the way we have experienced it)...if we look at the "4" ...we have D=4, N=14, X=24...these are letters/numbers that Brothaz that I respect about the knowledge of the story, have said are important. If "D" relates to supposed "justice" and "respect"?...then we are dealing with a reconciliation through the "X" related masses, which, as the story and many faith/culture involvements, means a massive awareness shift on the planet (well as we see it)...this is why we have the "laissez faire" approach..."don't touch it" or "let things take their course" ...

So this forced inevitable "awareness shift" which is next (to us, because folks won't budge)...is the obvious 360 Owl in transparency, that is the only thing to fix the division in faiths and Global political factions...(ever wondered why Shiite and Sunni groups don't get along?...it's details, which misses the point Muhammad made of embracing all revelations...)"Owlin" forces every Leader to soften their heart from no choice, but to recognize humility and compassion...all in due time...God's time...peace
