

G Tech 2014 (Lyrics)

Hook

G Tech, Don't step to the G Tech

G Tech, Let the Word rep (2 times)

Middle of the Raptcha choose sides captcha the essence of his presence
ever prime word pastcha (pasture)

Thank God instead of us still a war disastah makin' sense of it while we
lean into the laughtah

Fan of the Man for us the peace is business

As usual Brothahood 4 life, peace is institutional fightin' the confusion
still

Sleepers seem delusional Women teaching consciousness the future is
achievable

Don't get caught into the harboring of bitterness respect the tech
reflect cause effect deliverance

Collectively we witness mental fitness pass the peace teach the beast
everybody's wishes

Believable work it out regimes are confrontational past the face to face

Mystery ancient now redeemable

One argument now conceivable spirit searches the mind of God G Tech
is Spiritual

Verse #2

(We/They can) 😊Trust us, about the real we know the relativity of
every person's thought (and) every deal

God is love though the word is thrown around until we feel

Quick update mental shift G knows just chill

Half dozen one another don't compare me to my Brotha
Too many years of works n' battles we discovered
So, let's dream Big like Doc King Killer Bee Sting
Universal picture (so) we watch what we bring

Whether drivin' our own cars or push a used one
Feasible we got it locked peace the music have fun
Call my Brotha Son because he shine like one
Should be good 4 any hood 4 Thine (is the Kingdom) all done

Like the other faith rappers with an RYZ twist
R loyalty goes around till it makes the peace list
Kick snare is all we need makes his own hits
Love is love is God's praise it's a 14 blitz

Outro:

Roots said: "That's Doctor Light. Who are they?"

Peace to "We don't mind ourselves" "Oh yeah, smell me"

And to "Yeah, he went through it and we backed him up, while we lived our own lives"

Soon it's time to Debrief (4 time) Global financial powers...introduce them to the new Alpha Omega relationship alive within each one of us, to release the brainwash victims from the raptcha division conflicts

It's a G Tech reality. It's always onelove in the air, we just gotta give thanks for it...Build or destroy peace
